SECTION C: LANE TOPOGRAPHY

INSTRUCTIONS:

1. Lane topography is measured annually.
2. For tilt measurements, circle which side of the level the feeler gauges were placed under.
(7 for 7 pin side; 10 for 10 pin side, P for pin deck side, F for foul line side.
3. For synthetic lanes, use the Synthetic Lanes Page..
4. For wood lanes, use the Wood Lanes Page
5. For lanes with multiple surface types, use the Multi-Surface Lanes Page.
(Item 22 only applies if there is a 3rd synthetic panel or wood exposed 10' to 15' from the foul line.
6. Copy pages for centres with more than 12 lanes.
7. Lengthwise tilts are only measured following new installations. The specification is 0.040"

Completed copies are to be given to:

Local Association Manager (must be retained for 2 years)
Centre Representative
Canadian Tenpin Federation

Email: ctf@tenpincanada.com

Mailing Address: c/o 152 Cowichan Court West
Lethbridge, AB T1K 7T7

WITHIN 10 DAYS OF INSPECTION

Upon submission, this bowling centre will be placed on “pending” status. Once it has been verified, this bowling centre CTF specifications, it will become certified for the current bowling season and a certificate will be mailed to the bowling centre’s mailing address on record. Should an additional inspection be required, see Centre Re-Inspection Report on tenpincanada.com.

REPORT AUTHORIZATION

We, the undersigned, representing the listed bowling association, have measured and inspected the physical specifications of the lanes referred to in this report and certify the measurements listed herein to be accurate.
